

## Practical information

### Booking and Ticket Purchase

All exhibitions at PLOMM are guided discovery tours, offered at specific time slots. Due to limited capacity, we recommend booking in advance through our online system.

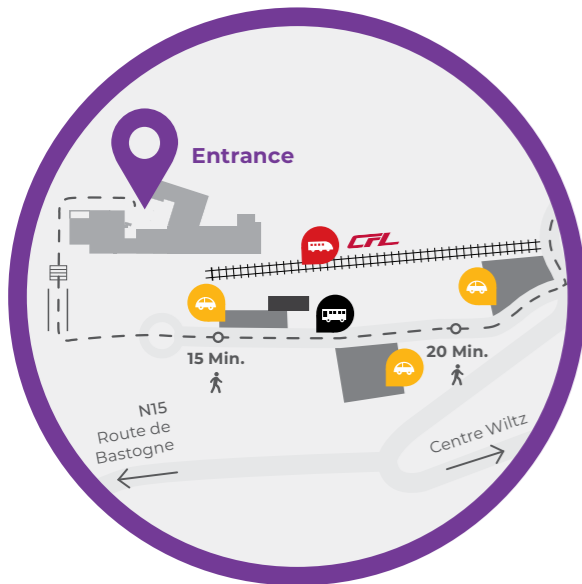

For safety reasons, street shoes are not allowed in the exhibition rooms. We kindly ask that you wear non-slip socks for your visit!

### Temporary exhibition

## LOVE

- Guided discovery tour
- Duration 1,5 hours
- Maximum 25 people
- 4 to 12 years

### Travel to the place of love!

The LOVE exhibition takes children on a journey to the center of the earth, to the place where love lives. It's an enchanted fantasy world far away from everything they have known. Once there, they can discover new ways of seeing and thinking about love. They can compose songs with their heartbeat, immerse themselves in colors, and engage in research and play. The artful design of the exhibition elements invites visitors to explore and try them out.

## PLOMM studios

### Discover your creative potential!

At our PLOMM studios, children learn about creative expression and discover their creative potential. We place particular attention on interactions with each other and the exchange of experiences. Throughout the year, we hold media and creative workshops on various topics!

KANNERMUSÉE

Children's Museum PLOMM

## The Museum for Children

... and Adults

The children's museum PLOMM offers a wide range of exhibitions and studios for children aged zero to twelve, their families, and companions. Everything at PLOMM is designed for participation: whether in our permanent exhibition, the Tree of Tales, our temporary exhibitions, or our creative workshops, there are exciting things to discover and try out everywhere!

## Our mission

The museum's mission is to encourage children to engage with socially relevant topics, develop opinions, and stimulate exchange among themselves. The PLOMM programs include topics from children's everyday culture. Here they are provided with the space to independently discover and try out, as well as express themselves in a variety of ways.

## The "Kompetenzlabo"

**Experiencing and promoting participation!**

The topic of child participation is particularly important to us. Therefore, in addition to museum work, we offer the "Kompetenzlabo" as a contact point for institutions, communities, and individuals who work with children and want to promote or further expand participatory structures.

**Permanent exhibition**

## The Tree of Tales

- Guided discovery tour
- Duration 1 hour
- Maximum 25 people
- 0 to 12 years

**Explore amazing stories!**

At the heart of the museum is the Tree of Tales, with leaves that extend up to the museum roof. Standing at a height of seven meters, it offers a variety of experiences, from a labyrinth in the roots to a tree house and nest in the treetop - stories and activities are waiting to be discovered everywhere!
